# Speaker Disclosure

I have no relevant financial relationships or affiliations to disclose.

Dale W. Bratzler, DO, MPH

[dale-bratzler@ouhsc.edu](mailto:dale-bratzler@ouhsc.edu)

# Objectives

- Explain the drivers promoting change in payment methods
- Summarize current programs designed to move to value-based payment for healthcare
- Describe the role of internal medicine as systems become accountable for costs and quality of patient outcomes

# Payment Reform

- We have a payment system that has rewarded more care, regardless of the value (or quality) of that care.
- Payment models have not promoted coordination of care across settings

## Exhibit 1. Health Care Spending as a Percentage of GDP, 1980–2013

**\$3.0 trillion in 2014**  
**\$9,523 per person**

\* 2012.

Notes: GDP refers to gross domestic product. Dutch and Swiss data are for current spending only, and exclude spending on capital formation of health care providers.

Source: OECD Health Data 2015.

# Where do we spend the money?

- Hospitals - \$971 billion in 2014 (a 4.1% increase)
- Physicians and clinical services - \$604 billion in 2014 (a 4.6% increase)

	Spending*	Increase
Other professional services	\$84.4	5.2%
Dental services	\$113.5	2.8%
Home health services	\$83.2	4.8%
Nursing care facilities	\$155.6	3.6%
Prescription drugs	\$297.7	12.2%

\*in billions

## Comprehensive Care for Joint Replacement Model

Share

The Comprehensive Care for Joint Replacement (CJR) model aims to support better and more

**Model Summary**  
Stage: Announced

***“.....aims to support better and more efficient care for beneficiaries.....”***

The proposed rule for the CJR model was published on July 9, 2015, with the comment period ending September 8, 2015. After reviewing nearly 400 comments from the public on the proposed rule, several major changes were made from the proposed rule, including changing the model start date to April 1, 2016. The final rule was placed on display on November 16, 2015 and can be viewed at the [Federal Register](#).

### Background

Hip and knee replacements are the most common inpatient surgery for Medicare beneficiaries and can require lengthy recovery and rehabilitation periods. In 2014, there were more than 400,000 procedures, costing more than \$7 billion for the hospitalizations alone. Despite the high volume of these surgeries, quality and costs of care for these hip and knee replacement surgeries still vary greatly among providers.

Updated: Application submission deadline

## ***Bundled payment for cardiac bypass surgery and heart attack care....***

### RELATED CONTENT

**Knee and hip bundled-payment challenge is about to start**

**Bundling risk: New demo program shows CMS' eagerness to ditch fee for service**

A new mandatory program the CMS proposed Monday would make hospitals in 98 markets financially accountable for the cost and quality of all care associated with bypass surgery and heart attacks. "We think it's important to keep pushing forward on delivery system reform," Dr. Patrick Conway, acting principal deputy administrator and chief medical officer for the CMS, told reporters in a call. "We think this is a huge opportunity." In 2014, hospitalizations for heart attacks for more than 200,000 beneficiaries cost Medicare over \$6 billion, the CMS said. Yet for every treatment, the cost could vary by as much as 50%, the agency said. The CMS is seeking comment on the five-year demonstration, which would take effect July 1, 2017, in 98 randomly selected metropolitan areas.

**Medicare Program; Merit-based Incentive Payment System (MIPS) and Alternative Payment Model (APM) Incentive under the Physician Fee Schedule, and Criteria for Physician-Focused Payment Models**

**AGENCY:** Centers for Medicare & Medicaid Services (CMS), HHS.

**ACTION:** Final rule with comment period.

**SUMMARY:** The Medicare Access and CHIP Reauthorization Act of 2015 (MACRA) repeals

# Who's in or out?

## Who's in?

- Physicians
- Physician assistants
- Nurse practitioners
- Clinical nurse specialists
- Certified registered nurse anesthetists

## Who's excluded?

- If 2017 is your first year of participation in Medicare
- You have less than or equal to \$30,000 in Medicare Part B allowed charges for the year
- You care for less than or equal to 100 Medicare patients during the year

# Who Will Participate in MIPS?

Affected clinicians are called “**MIPS eligible clinicians**” and will participate in MIPS. The types of **Medicare Part B** eligible clinicians affected by MIPS may expand in future years.

Years 1 and 2

Physicians, PAs, NPs, Clinical nurse specialists, Certified registered nurse anesthetists

Years 3+

Secretary may broaden Eligible Clinicians group to include others such as

Physical or occupational therapists, Speech-language pathologists, Audiologists, Nurse midwives, Clinical social workers, Clinical psychologists, Dietitians / Nutritional professionals

Note: Physician means doctor of medicine, doctor of osteopathy (including osteopathic practitioner), doctor of dental surgery, doctor of dental medicine, doctor of podiatric medicine, or doctor of optometry, and, with respect to certain specified treatment, a doctor of chiropractic legally authorized to practice by a State in which he/she performs this function.

## Who Will Participate in MIPS?

Secretary may  
broaden Eligible  
Clinicians group to  
include others  
such as

Physical or occupational therapists,  
Speech-language pathologists,  
Audiologists, Nurse midwives, Clinical  
social workers, Clinical psychologists,  
Dietitians /  
Nutritional professionals

practitioner), doctor of dental surgery, doctor of dental medicine, doctor of podiatric medicine, or doctor of optometry, and, with respect to certain specified treatment, a doctor of chiropractic legally authorized to practice by a State in which he/she performs this function.

# What happens in 2017?

**Eligible  
Professional**

**Quality Payment Program  
(QPP)**

## **Advanced Alternate Payment Mechanisms (APM)**

- “Substantial portion” of revenues from “approved” alternate payment models
  - 5% bonus each year from 2019-2024
  - 0.75% increase per year beginning in 2026

## **Merit-based Incentive Payment System (MIPS)†**

- Providers receive a score of 0-100
- Each year, CMS will establish a threshold score based on the median or mean composite performance scores of all providers
  - Providers scoring above the threshold will receive bonus payments (up to three times the annual penalty cap).

You can choose to start anytime between January 1 and October 2, 2017. Whenever you choose to start, you'll need to send in your performance data by March 31, 2018.

**Failure to submit any data for 2017 will result in an automatic 4% reduction in Medicare payment for 2019.**

# Merit-based Incentive Payment System (MIPS)\*

- **Quality Performance**

- Replaces the Physician Quality Reporting System (PQRS) and some components of the Value-Based Modifier

- **Resource Use**

- Replaces the cost component of the VBM

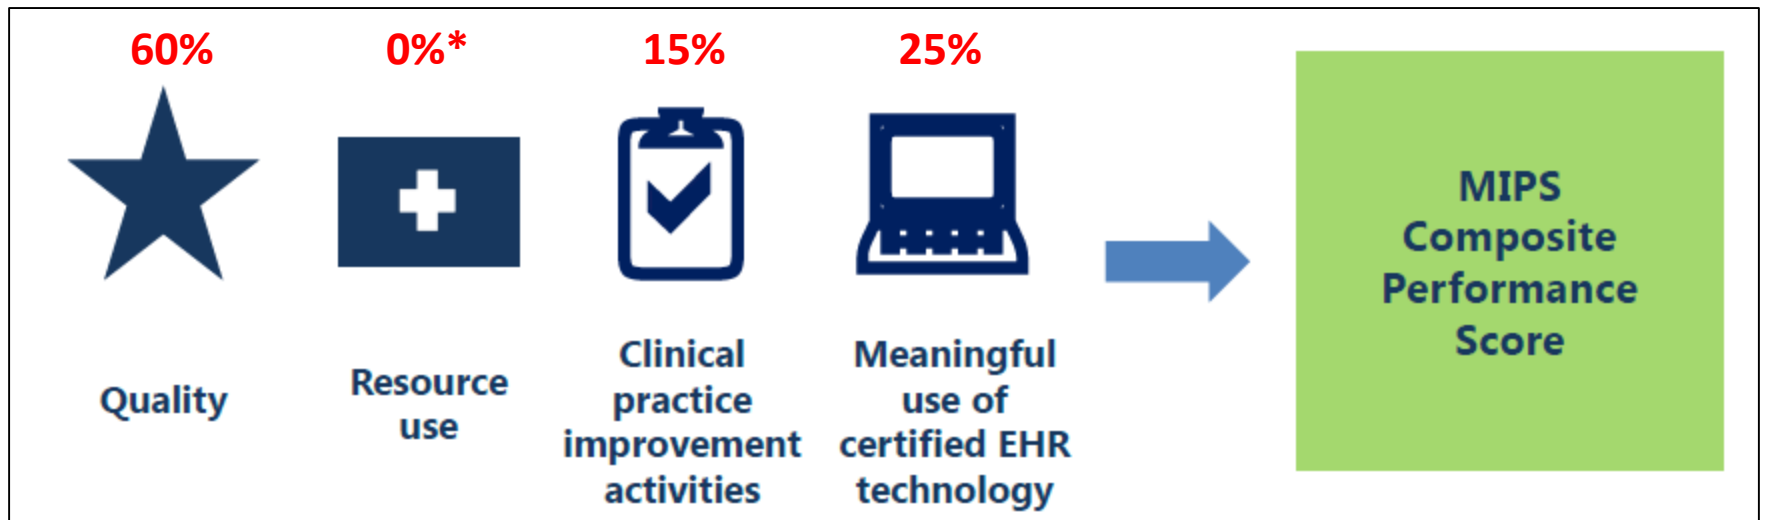

- **Clinical Practice Improvement Activities (CPIA) - new**

- **Advancing Care Information**

- Replaces the Meaningful Use (MU) program
- a particular emphasis on interoperability and information exchange

# Merit-based Incentive Payment System (MIPS)

***First performance year is CY 2017 to adjust payment in CY 2019.***

## How much can MIPS adjust payments?

- Based on the MIPS **composite performance score**, physicians and practitioners will receive positive, negative, or neutral adjustments up to the percentages below.
- MIPS adjustments are **budget neutral**. A **scaling factor** may be applied to upward adjustments to make total upward and downward adjustments equal.

# Quality Performance – 60% of Score for CY 2017

- Most participants: Report up to 6 quality measures, including an outcome measure, for a minimum of 90 days.
- Groups using the web interface: Report 15 quality measures for a full year.

# Resource Use – 0% of Score for 2017\*

- CMS will calculate from claims over 40 episode-specific measures to account for differences among specialties.
  - For cost measures, clinicians that deliver more efficient care achieve better performance and score the highest points (the most efficient resource use).

*“Episodes of care” roll up all costs of inpatient and outpatient care (including imaging, laboratory, drugs, rehabilitation, etc).*

# Over time, resource use is more heavily weighted

## MIPS Performance Categories/Weights

Performance Category	MIPS General*			MIPS APM
	Year 1 (2019)	Year 2 (2020)	Year 3 (2021)	
Quality	<del>50%</del> 60%	45%	30%	Varies depending on APM
Resource Use	<del>10%</del> 0%	15%	30%	
CPIA	15%	15%	15%	
ACI	25%	25%	25%	

\*For MIPS General weights will be adjusted for certain factors, such as non-patient facing clinicians

# Clinical Performance Improvement Activities – 15% of Score

- CMS proposes to allow physicians to select from a list of more than 90 activities.

# Clinical Performance Improvement Activities

- **Most participants:** Attest that you completed up to 4 improvement activities for a minimum of 90 days.
- **Groups with fewer than 15 participants or if you are in a rural or health professional shortage area:** Attest that you completed up to 2 activities for a minimum of 90 days.

# Advancing Care Information – 25% of MIPS score

**Fulfill the required measures for a minimum of 90 days:**

- Security Risk Analysis
  - e-Prescribing
  - Provide Patient Access
  - Send Summary of Care
  - Request/Accept Summary of Care
- 
- Choose to submit up to 9 measures for a minimum of 90 days for additional credit.

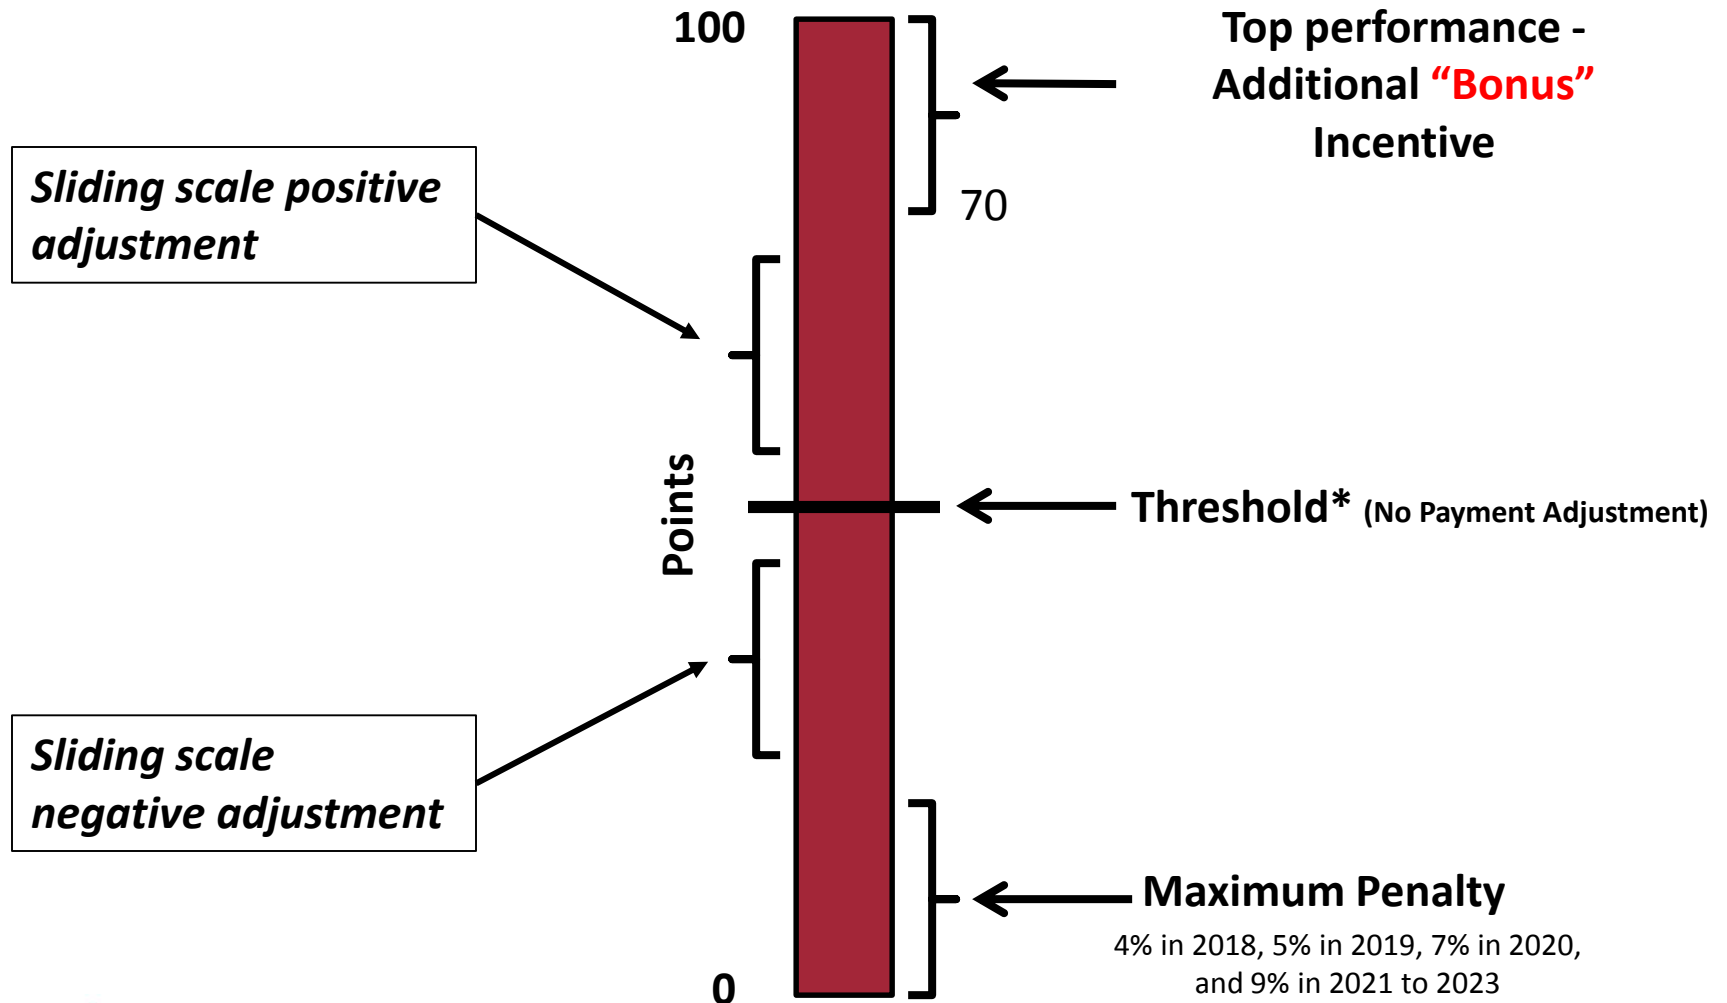

**For bonus credit, you can:**

- Report Public Health and Clinical Data Registry Reporting measures
- Use certified EHR technology to complete certain improvement activities in the improvement activities performance category

# Reporting MIPS Data

- **Reporting as an individual.**
  - An individual is defined as a single National Provider Identifier (NPI) tied to a single Tax Identification Number.
- **Reporting as a group.**
  - A group is defined as a set of clinicians (identified by their NPIs) sharing a common Tax Identification Number, no matter the specialty or practice site.

# Scoring under MIPS

# Scoring under MIPS

100

Top performance -  
Additional **"Bonus"**  
Incentive

***By law, the program must be budget neutral. There have to be losers to have incentive payments!...***

***....with one caveat. Congress appropriated \$500 million (2019-2024) to bonus top performers under MIPS***

***negative adjustment***

0

**Maximum Penalty**

4% in 2018, 5% in 2019, 7% in 2020,  
and 9% in 2021 to 2023

# Alternate Payment Models (APMs)

- “Substantial portion” of revenues\* from “approved” alternate payment models
  - For now, very few “approved” APMs
  - Not subject to MIPS
- Receive 5% lump sum bonus payments for years 2019-2024
- Receive a higher fee schedule update from 2026 onward

## What is an **eligible APM**?

Eligible APMs are the **most**

***The practice must bear more than nominal financial risk!***

- ✓ **Base payment on quality** measures comparable to those in MIPS
- ✓ Require use of certified **EHR** technology
- ✓ Either (1) bear more than nominal **financial risk** for monetary losses **OR** (2) be a **medical home model expanded** under CMMI authority

# Qualifying Advanced APMs

**For the 2017 performance year, we anticipate that the following models will be Advanced APMs:**

Comprehensive End Stage Renal  
Disease Care Model  
(Two-Sided Risk Arrangements)

Comprehensive Primary Care Plus (CPC+)

Medicare Shared Savings Program Track 2

Medicare Shared Savings Program Track 3

Next Generation ACO Model

Oncology Care Model (two sided risk)

# Advanced APM – to avoid MIPS

**Table 1: Requirements for APM Incentive Payments for Participation in Advanced APMs**  
(Clinicians must meet payment or patient requirements)

Performance Year	2017	2018	2019	2020	2021	2022 and later
Percentage of Medicare Payments through an Advanced APM						
Percentage of Medicare Patients through an Advanced APM						

# “Pick Your Pace”

- **First option:** Report something to avoid penalties (no incentives)
- **Second option:** Submit data for part of the calendar year (small incentives and avoid penalties)
- **Third option:** Submit data for the entire calendar year (“modest” payment incentive and avoid penalties)
- **Fourth option:** Participate in an Alternate Payment Model

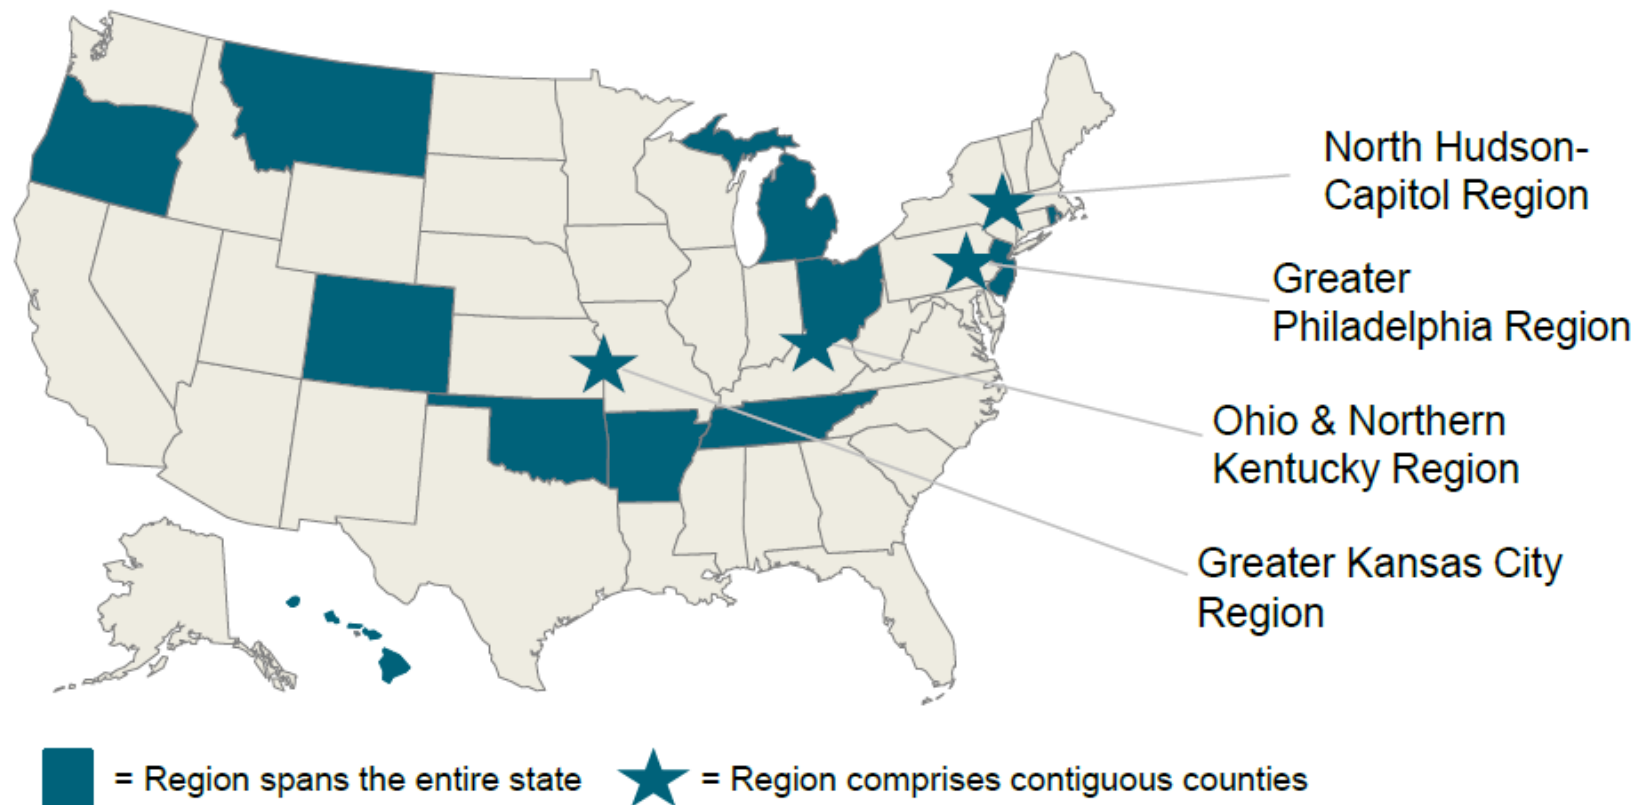

# Comprehensive Primary Care Plus (CPC+)

*A new model for primary care in America*

## CPC+ Participating Regions & Provisional Payer Partners

# CMS Required Other Payers to Participate to Select a Region

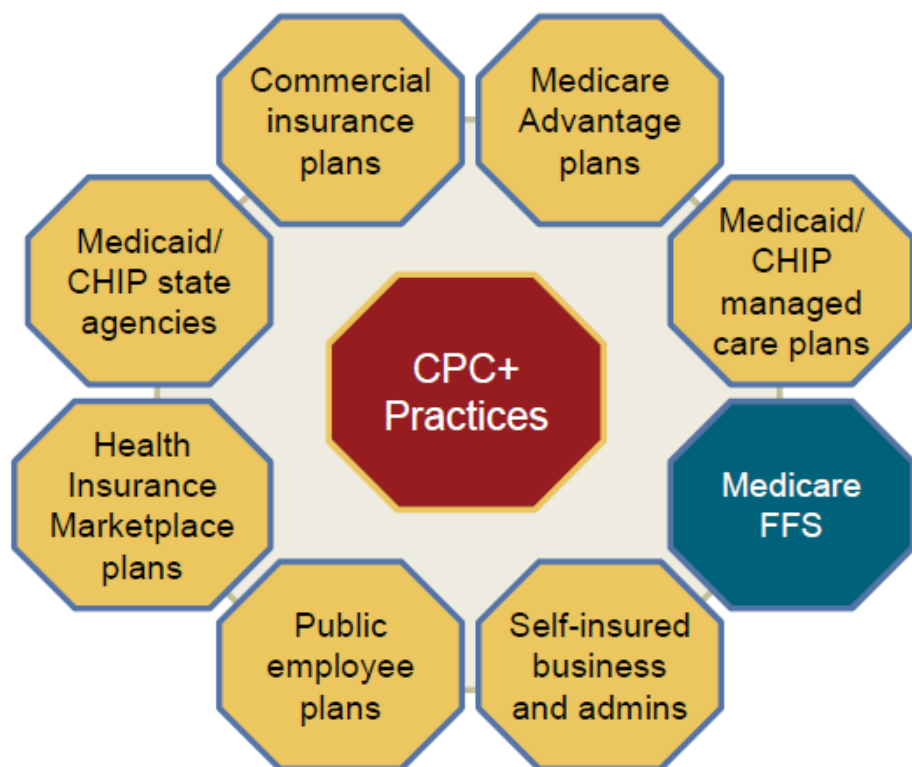

REGION	PARTICIPATING COUNTIES	PROVISIONAL PAYER PARTNERS
OKLAHOMA	Statewide	Advantage Medicare Plan (AMP) CommunityCare Blue Cross and Blue Shield of Oklahoma Medicaid UnitedHealthcare

***It is not just Medicare!***

# CPC+ Regions Selected Based on Multi-Payer Support

Partner Payers Aligned With But Not Identical to Medicare

## Payers Invited to Partner

## Required Payer Alignment

Enhanced, non-FFS support

Change in cash flow mechanism from fee-for-service to at least a partial alternative payment methodology for Track 2 practices

Performance-based incentive

Aligned quality and patient experience measures with Medicare FFS and other payers in the region

Practice- and member-level cost and utilization data at regular intervals

# Substantially changes payment for primary care.

	Care Management Fee (PBPM)	Performance-Based Incentive Payment (PBPM)	Payment Structure Redesign
Objective	<i>Support augmented staffing and training for delivering comprehensive primary care</i>	<i>Reward practice performance on utilization and quality of care</i>	<i>Reduce dependence on visit- based fee-for-service to offer flexibility in care setting</i>
Track 1	\$15 average	\$2.50 opportunity	N/A (Standard FFS)
Track 2	\$28 average; including \$100 to support patients with complex needs	\$4.00 opportunity	Reduced FFS with prospective “Comprehensive Primary Care Payment” (CPCP)

# Track 2 Payment Redesign

*Designed to promote population health beyond office visits!*

Hybrid of FFS and Upfront “Comprehensive Primary Care Payment” (CPCP) for Evaluation & Management

- Practices receive enhanced fees with roughly half of expected FFS payments upfront and subsequent FFS billings reduced by the prepaid amount
- CPCP reduces incentive to bring patients into the office for a visit but maintenance of some FFS allows for flexibility to treat patients in accordance with their preferences
- Practices select the pace at which they will progress towards one of two hybrid payment options (both roughly 50/50) by 2019

# Track 2 Payment Redesign

## *CPCP and FFS Options*

	2017	2018	2019	2020	2021
CPCP%/FFS% options available to practices, by year	10%/90%				
	25%/75%	25%/75%			
	40%/60%	40%/60%	40%/60%	40%/60%	40%/60%
	65%/35%	65%/35%	65%/35%	65%/35%	65%/35%

**Track 2 practices will receive a percentage of their expected Medicare E&M payment upfront in the form of a CPCP and a reduced fee-for-service payment for face-to-face E&M claims.**

***This is designed to incentivize the practice to keep patients healthy rather than promoting additional delivery of healthcare services.***

## Docs face stark choices under new Medicare pay proposal

By [Beth Kutscher](#) | April 30, 2016

The new draft regulations designed to change the way Medicare pays doctors represent the most sweeping overhaul the business of running a physician practice in decades.

The goal is to have the vast majority of Medicare payments based on quality models that reward doctors for the quality of care they provide to the patients they see.

### Practice Notes

# With MACRA, 2017 will be 'year of reckoning' for physician payment

2:56 PM on May 2, 2016 by [Rivka Friedman](#)

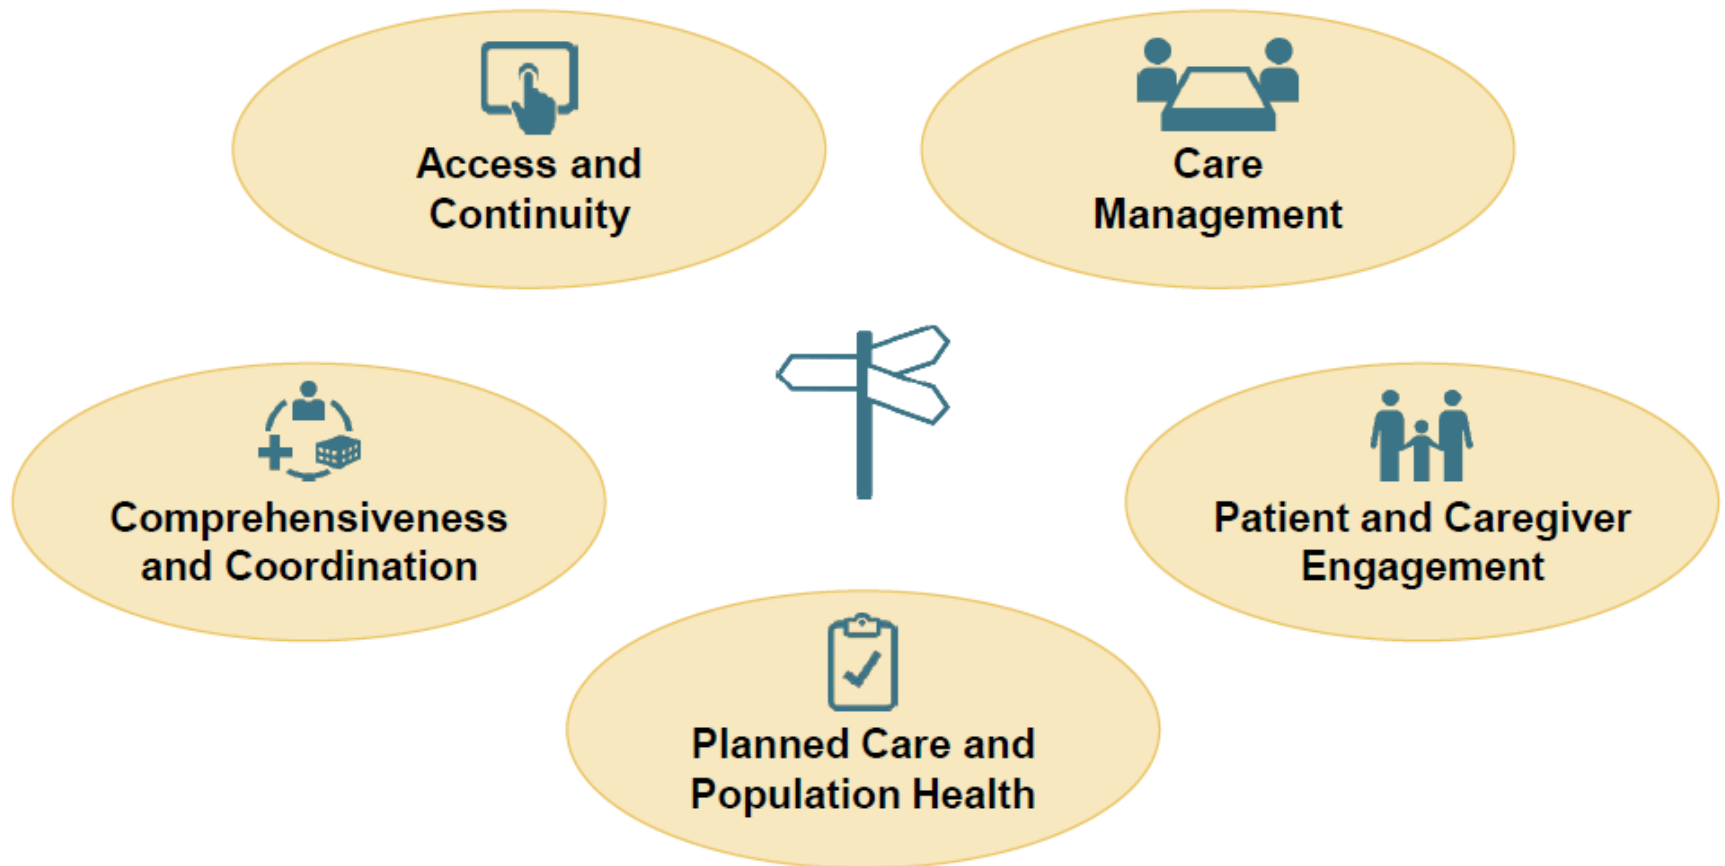

Last Wednesday, CMS released its proposed rule for MACRA, the Medicare Access and CHIP Reauthorization Act, which replaced SGR and redefined parameters for Medicare physician reimbursement.

**Physician Quality Reporting System (PQRS)**  
**CMS Announces the Release of the Physician Quality Reporting System (PQRS) 2014 Reporting Experience Including Trends (2007-2015)**

- **558,885 EPs are currently subject to the 2016 PQRS negative payment adjustment.\***
- **Of those professionals subject to the adjustment**
  - 466,351 were non-participants (those EPs who did not attempt to participate)
  - 92,534 were participants who were unsuccessful in meeting the reporting requirements

# The Role of Internal Medicine

# The additional challenge for a group practice.....

.....provider compensation models will have to change to match incentives under payment reform.

# Quality Payment Program

Modernizing Medicare to provide better care and smarter  
spending for a healthier America.
